# ENERGY

IN MAURITANIA

# MAURITANIA

- Official Name : **Islamic Republic of Mauritania**
- Population : **4,9 millions**
- Area : **1 030 700 km²**
- Currency : **Mauritanian Ouguiya (MRU)**
- GDP : **10.45 billion USD**

## Industry Overview

Mauritania is positioning itself as a key player in the energy sector, thanks to its potential in natural gas and renewable energies (solar, wind). The country is also betting on the development of green hydrogen projects to be fully part of the global energy transition.

Mauritania has two major gas basins: **Taoudéni** (onshore) and **The Offshore Coastal Basin**, where the **Great Ahmeyim Turtle (GTA)**, shared with Senegal is ready for production.

The country has also undertaken significant reforms to liberalize the electricity sector and has adopted the **first Green Hydrogen Code** in the world, providing an attractive framework for investors.

## Key figures

Proven Reserves

**+100** TCF

Confirmed Discoveries

**11**

Available Blocks

**30** Blocks

Solar potential

**2300** kWh/m²

Wind potential

**9** m/s

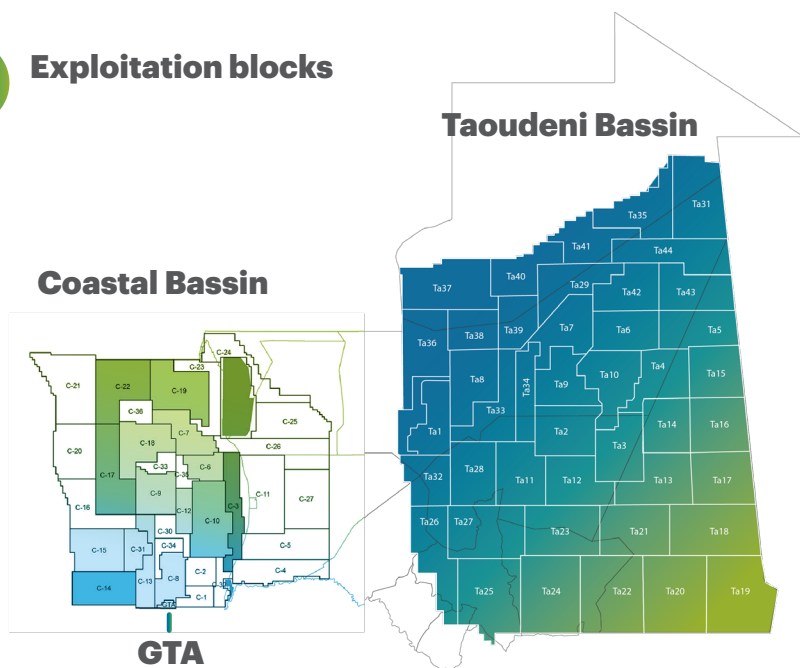

Potential Hydrogen

**20,1** Tons/Year

## Exploitation blocks

## Investment Opportunities

- 1 Oil & Gas exploration and production
- 2 Logistics and services for the energy sector
- 3 Infrastructure: Storage, Transport and Distribution
- 4 Power generation (IPP): Gas-to-power, solar and wind energy
- 5 Electricity distribution and marketing
- 6 Green hydrogen: Production and export

## Competitive Advantages

Diversified energy resources (oil and gas, renewables)

Attractive legal and tax framework for investments

Direct access to international markets (Europe, Asia, Africa)

Political stability and investment security

Developed infrastructure (ports, roads, industrial areas)

REGULATORY FRAMEWORK  
AND INCENTIVES

The energy sector in Mauritania is governed by several key pieces of legislation:

- **Crude Hydrocarbons Code**
- **Production Sharing Contract**
- **Electricity Code**
- **Green Hydrogen Code**

The Investment Code provides tax and customs exemptions for renewable energy projects, encouraging investors to participate in the energy transition and sustainable development. These incentives support the development of solar, wind, and green hydrogen energy in the country.

The Investment Promotion Agency of Mauritania (APIM), a public institution, is committed to supporting your investment projects in Mauritania.

APIM We offer a full range of services, from business advisory, company creation, access to tax incentives, and personalized aftercare support. Our mission is to streamline your administrative procedures and ensure the success of your investments.

All our services are offered free of charge.
